

STELLA MARY'S COLLEGE OF ENGINEERING

Vision

To set a benchmark in providing high quality and standard technical education that measures up to International level with all modern and latest educational aids to its students thereby enabling them to achieve excellence and expertise in their prevalent field.

Mission

To be a leader in academic circle to meet all the educational needs of its students and play an active role in moulding and nurturing the dreams of its students so as to create a better and vibrant student community in the near future.

"Engineers like to solve problems. If there are no problems handily available, they will create their own problems" -Scott Adams

Mr Nazerath Charles the founder chairman was an engineer by profession & loved doing social work to uplift the poor, the under privileged and the women. He worked with an attitude of service before self. He is committed towards excellence. He believes that education dispelled the darkness of illiteracy and helped in harmonious development of the personality of a child and taught him to choose the right path in his life

The establishment of this college has fulfilled his long cherished dream of starting an Engineering College to serve the Society offering technical education in both conventional and hi-tech disciplines of engineering with all the state-of-the-art facilities. As an industrialist, he realized that there is no symbiosis between the academic institution and the industry. It is with this idea that Mr Nazerath Charles with the support of an accomplished and experienced team of committed and dedicated professional experts launched Stella Mary's College of Engineering.
